## Summary

Conisch is a music app developed by students that lets you add your own music and it allows you to listen to it. It is an easy to use music player. You can change your music, remove songs, and search within the application. The app also has tools for administrators to manage user data, to add, delete and edit any user information. The program allows users to sign up and create a local account for them to sign in. After signing in, it is self-explanatory. It's easy to use and good for discovering music or for playing your favorite songs.

## Sign In Form

The image shows a dark-themed sign-in form window. At the top center is a circular logo with three horizontal orange lines and the word "Academy" in a script font. Below the logo is the text "Sign In". There are two input fields: the first is labeled "Username" with a person icon, and the second is labeled "Password" with a lock icon. Below these fields is a red "Sign In" button. At the bottom, there is a link "Don't have an account yet?" and a link "Sign Up".

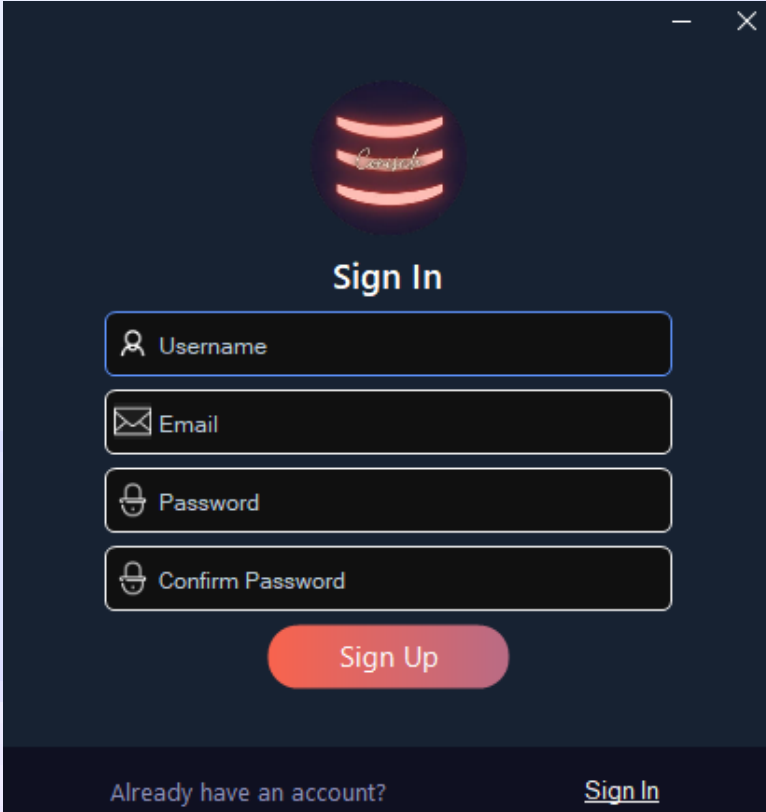

Step 1: Insert Username.

Step 2: Insert Password.

Step3: Click the Sign In button.

Note: If you do not have an account, create one by clicking sign up.

Already have an account? [Sign In](#)

Step 1 : Insert a username of your choice.

Step 2 : Insert your email Address.

Step 3 : Create a password of your choice.

Step 4: Rewrite the password you have created previously.

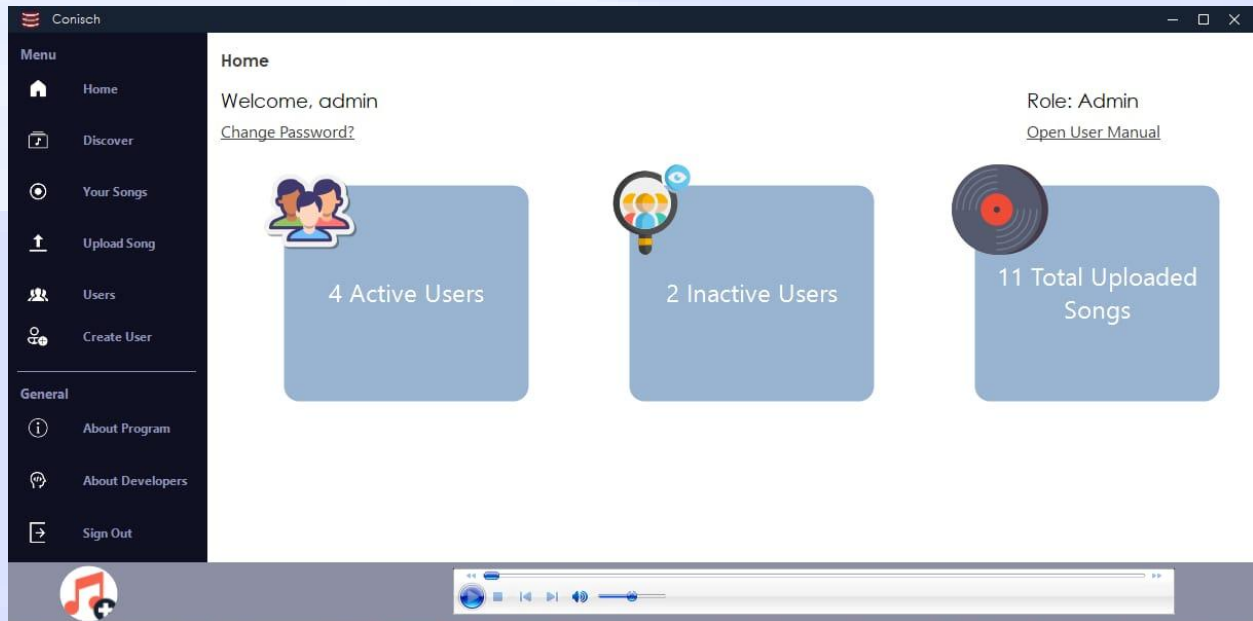

Step 5: Click on the Sign Up button.

Step 6: Click the Sign In link to go back to the Sign In form.

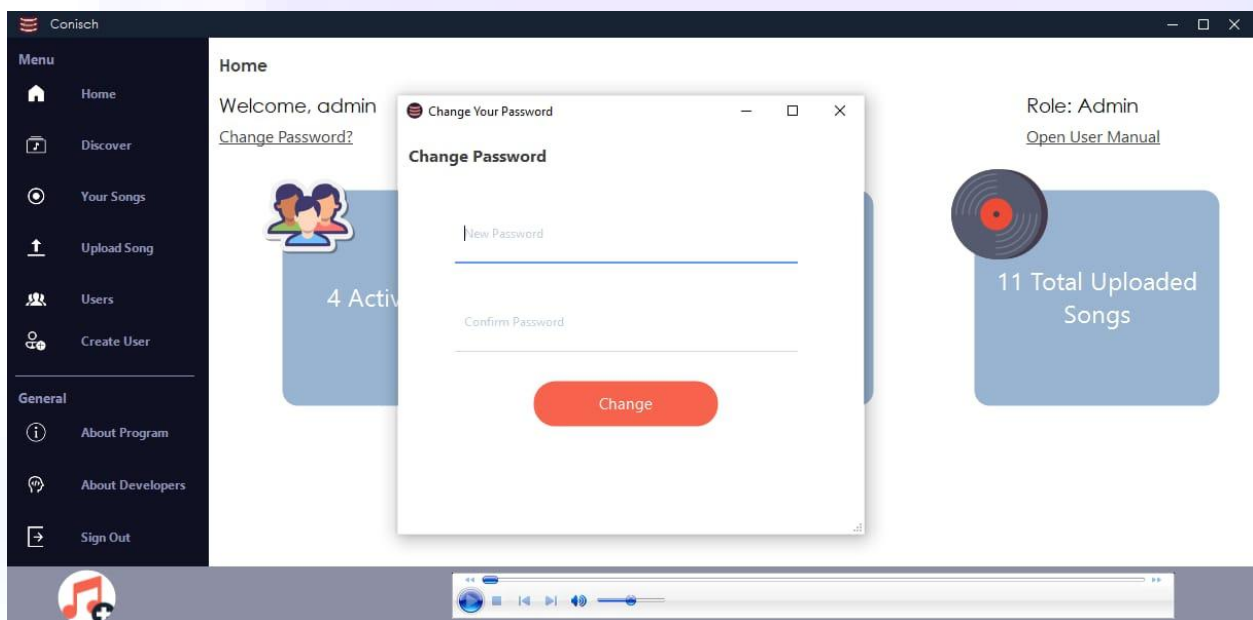

Step 7: Sign In with your user account which you had just created.

## Admin/User Interface and Change password

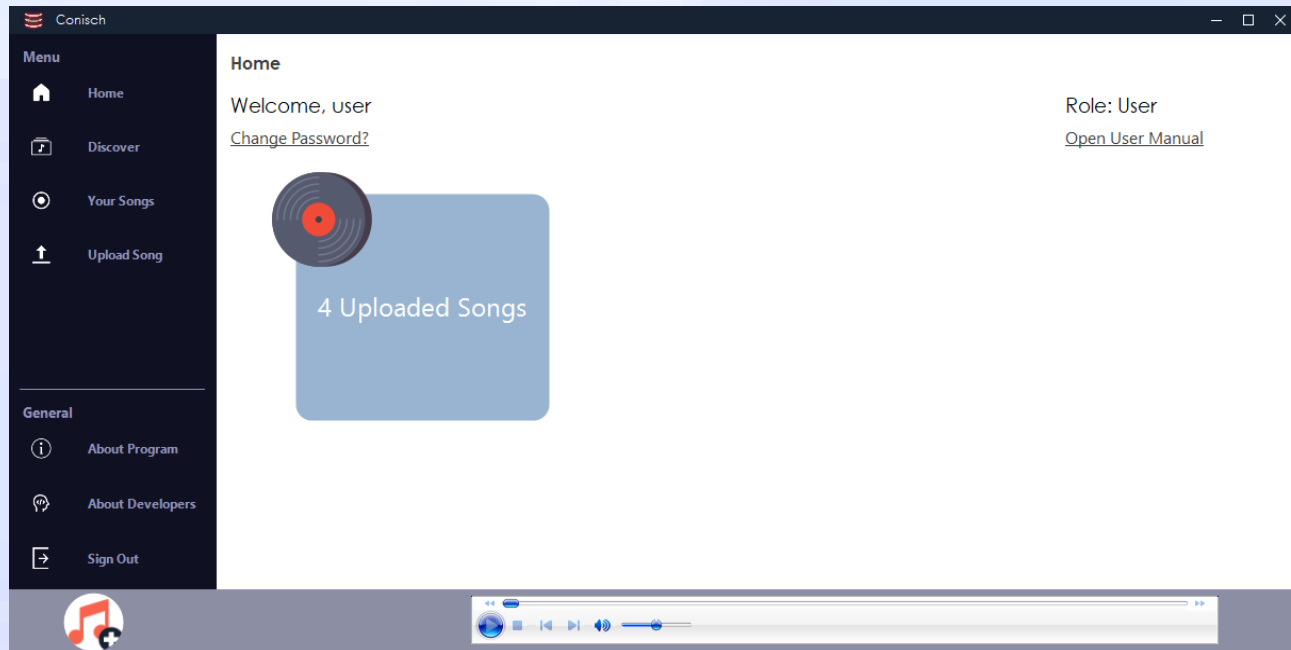

The Admin/Manager will be able to see the amount of active users, inactive users and total amount of songs uploaded to the Conisch platform as key indicators.

The Administrator/Manager/User is able to change their own password when they click on "Change Password?".

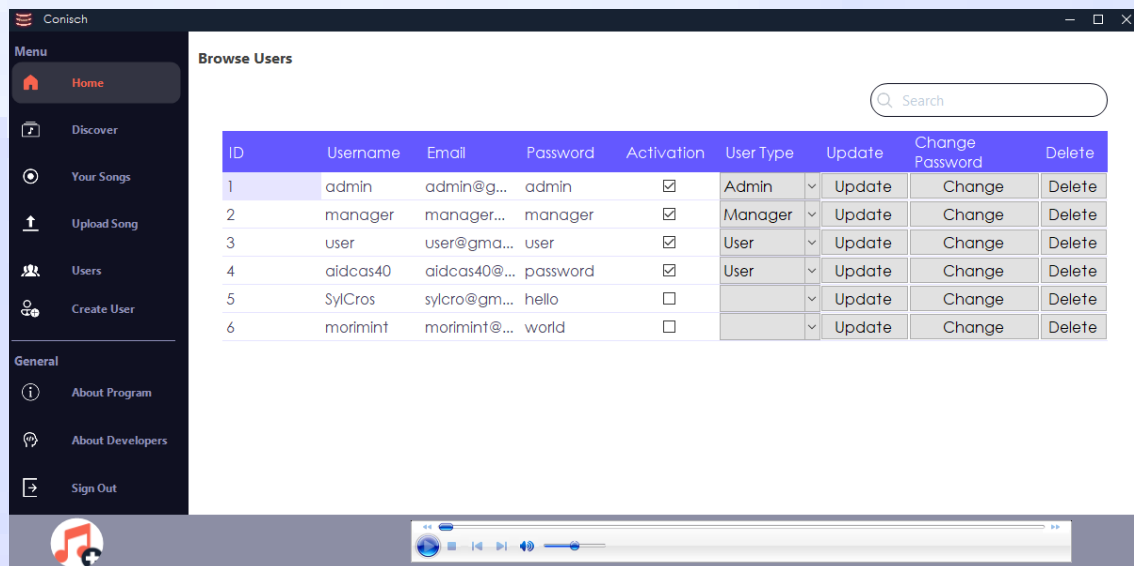

When a standard user signs in to their account, they will only be able to total amount of songs that they have uploaded to the Conisch platform as a key indicator. They will also have access to the “Change Password?” and “Open User Manual” features. The “Open User Manual” will open this document in the chrome browser.

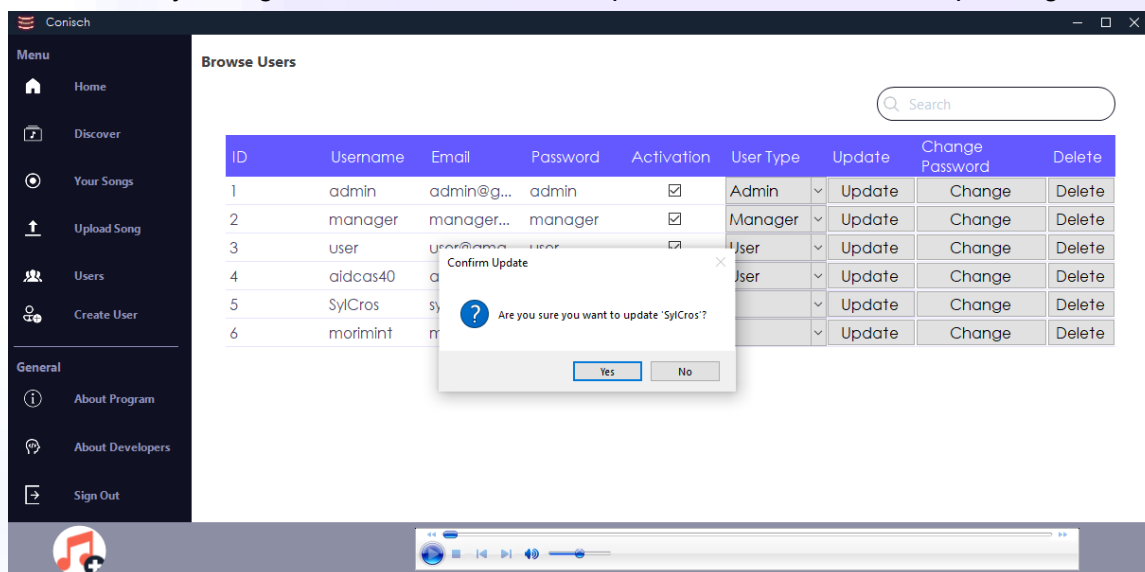

## Users/Create User

When the Users Button is clicked, the Admin/Manager will be able to see accounts that have been created and registered. The administrator will be able to activate accounts, change the user type, update accounts, change password and even delete accounts. To make the whole process easier to find a user, a search bar is available for the Admin/Manager to search by username, email or user type.

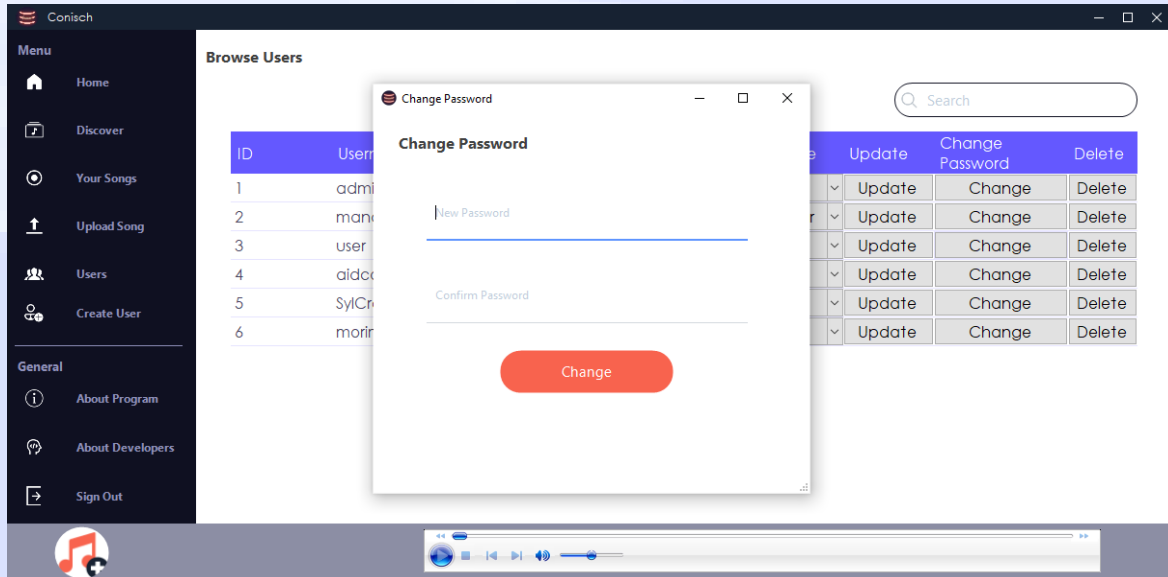

When it comes to updating, the Admin/Manager will be able to either Activate/deactivate or assign a user type to any of the users. To update the a record, the Admin/Manager should make the necessary changes and then click on the Update button for the corresponding record.

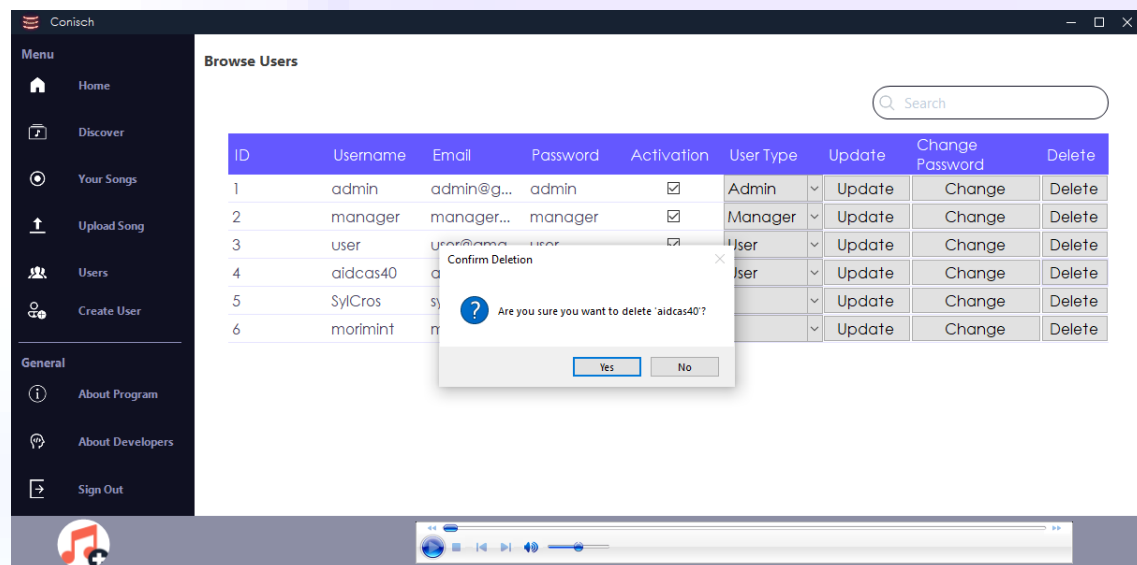

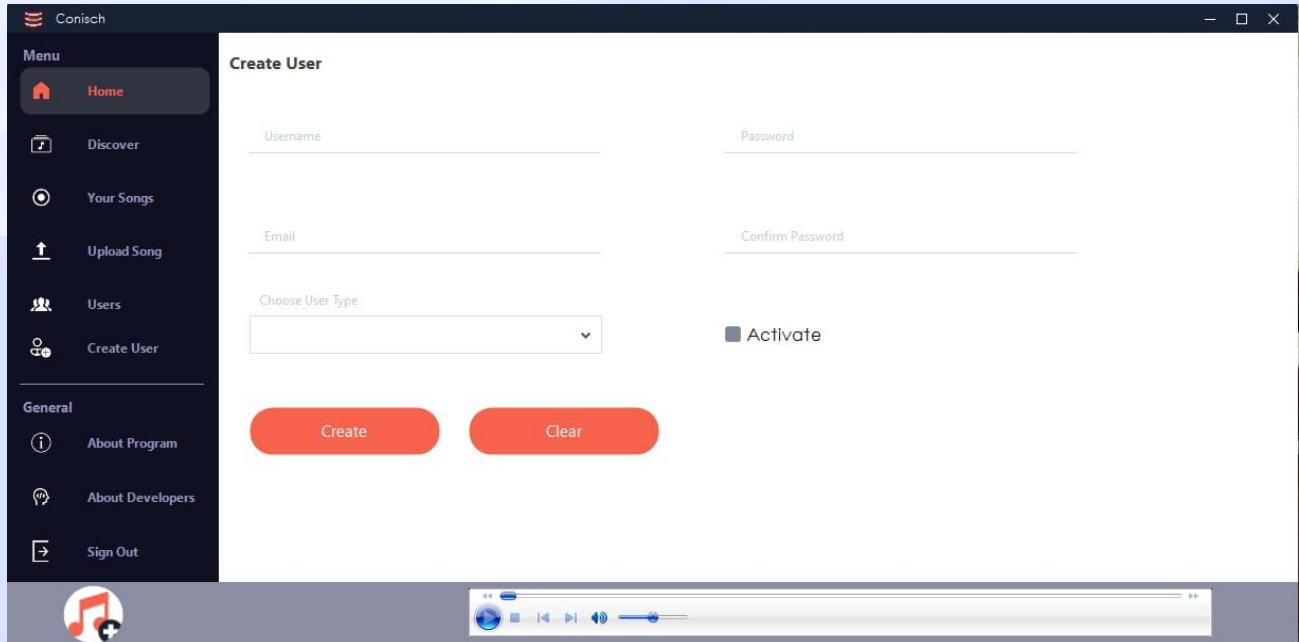

The Admin/Manager will also be able to change the password of any user. To change a user's password, they must click on the Change button for the corresponding record they wish to edit. When the Change button is clicked, they will be presented with a Change Password Dialog, where they can then input the necessary information to change a user's password.

As for deleting a user, only the Admin will have access to this feature. To delete a user the Admin must click on the Delete button which corresponds to the user that they wish to delete. When this is done, they will be prompted to confirm the deletion. They can either choose to continue or cancel it.

Only Admins have access to the feature, which is to create a user by clicking on the Create User button. To create a user, the form must be completely filled out and once the Admin is done, then they just need to click on the create button. They also have the option to clear the form.

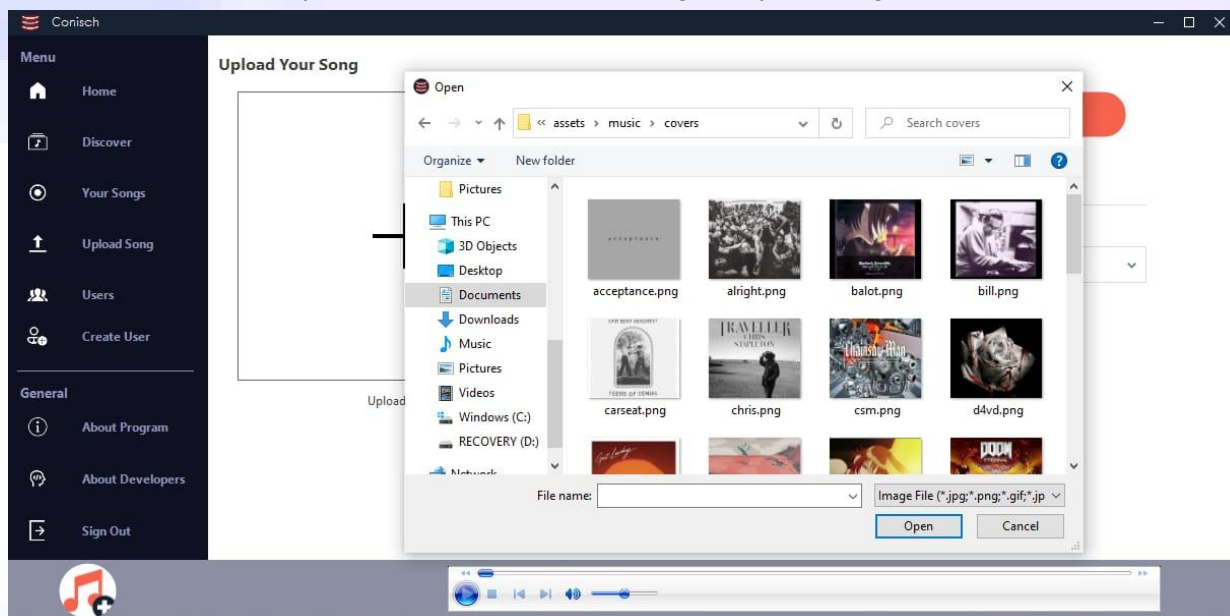

The screenshot shows a web application window titled "Conisch". On the left is a dark sidebar menu with the following items: "Home" (selected), "Discover", "Your Songs", "Upload Song", "Users", "Create User", "About Program", "About Developers", and "Sign Out". The main content area is titled "Create User" and contains a form with the following fields: "Username", "Password", "Email", "Confirm Password", and a "Choose User Type" dropdown menu. There is an "Activate" checkbox. At the bottom of the form are two red buttons: "Create" and "Clear". The bottom of the window features a music player interface with a play button, a progress bar, and a volume control.

## Uploading a Song

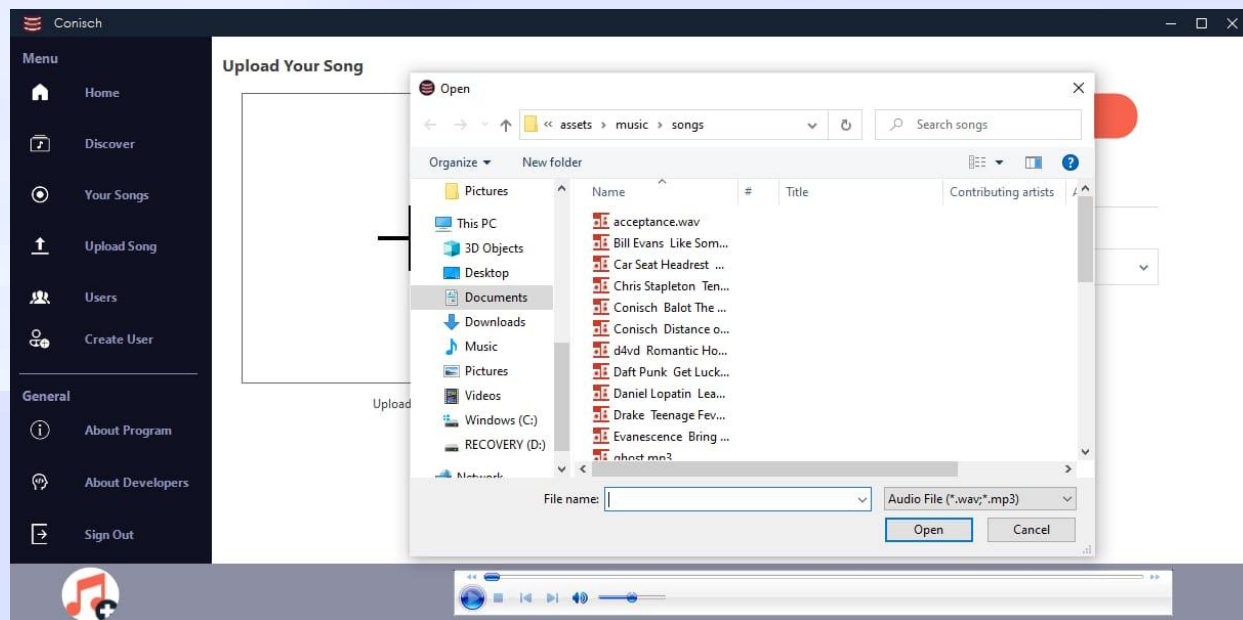

Step 1. Fill in the form with the appropriate song information.

The screenshot shows the 'Upload Your Song' interface. On the left is a dark sidebar menu with options: Home, Discover, Your Songs, Upload Song, Users, and Create User. Below this is a 'General' section with About Program, About Developers, and Sign Out. The main area has a large square with a plus sign labeled 'Upload Image'. To the right is a form with fields for Song Name, Featuring Artist, Artist, and Choose Genre (a dropdown menu). There is also a 'Choose Release Date' field with a calendar icon and the date 4/20/2023. At the bottom right are 'Upload' and 'Clear' buttons. A 'Choose File' button is located above the Song Name field. The bottom of the window features a music player interface with a play button and a progress bar.

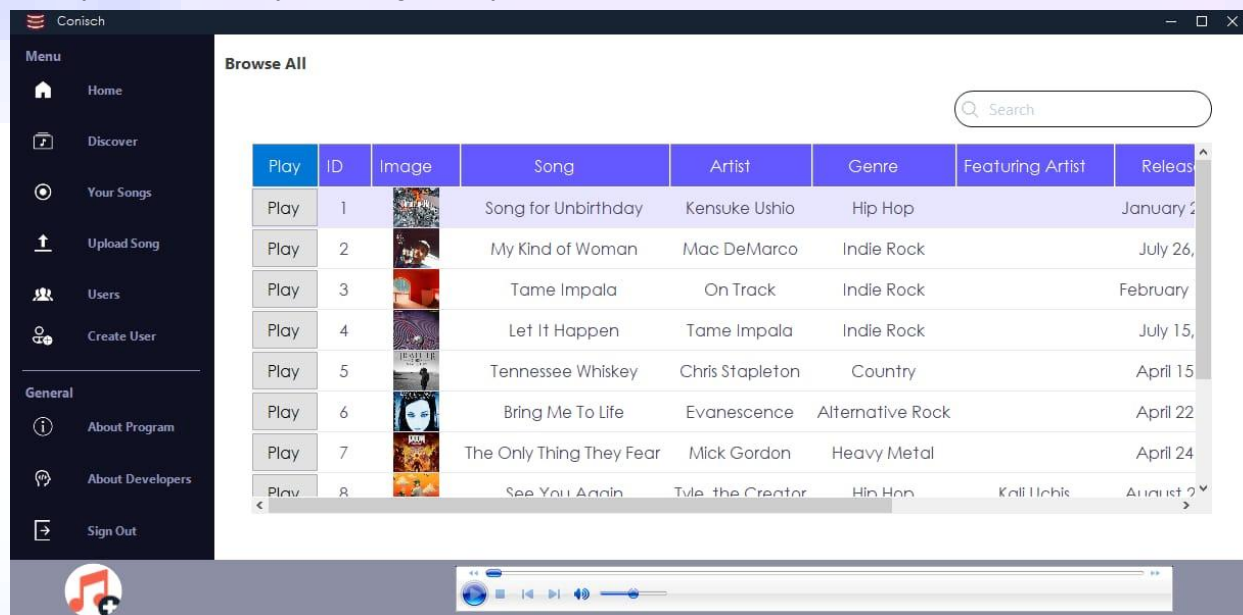

Step 2. Click the plus symbol to choose a cover image for your song.

Step 3. Click on choose file to select the desired song that you wish to upload.

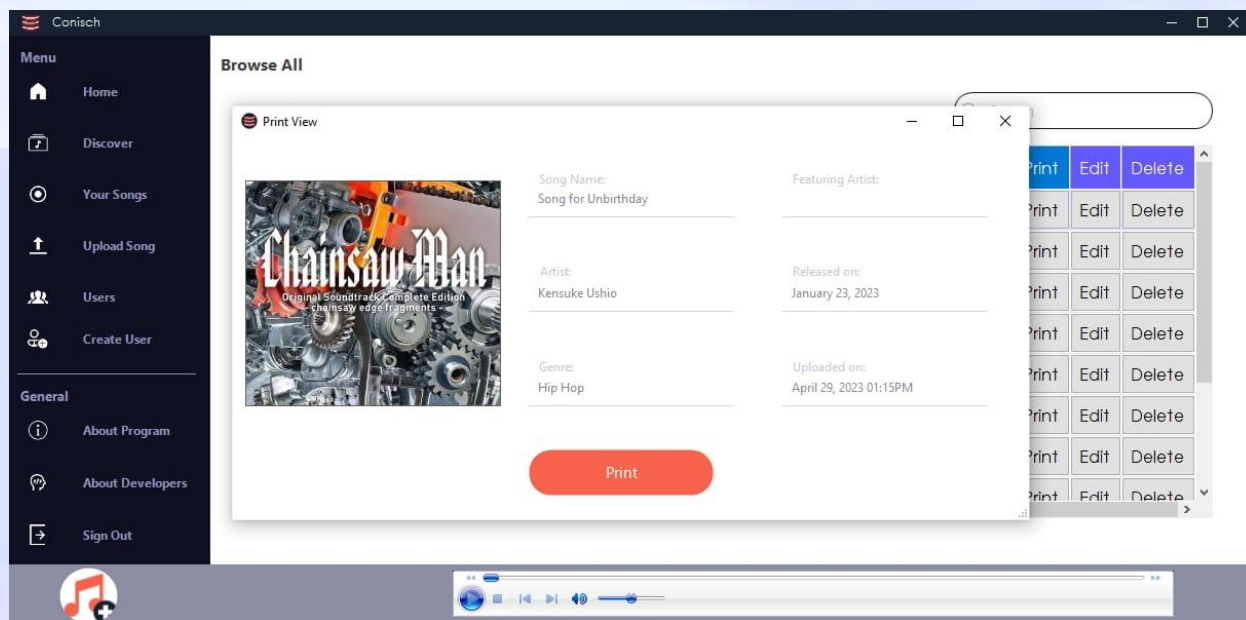

Step 4. Once everything is done, click the upload button. To see the song that you have recently uploaded, either click on the Discover or Your Songs menu button. Discover allows you to view/play all songs that have been uploaded to the Conisch platform. While Your Songs only allow you to view/play the songs that you have uploaded.

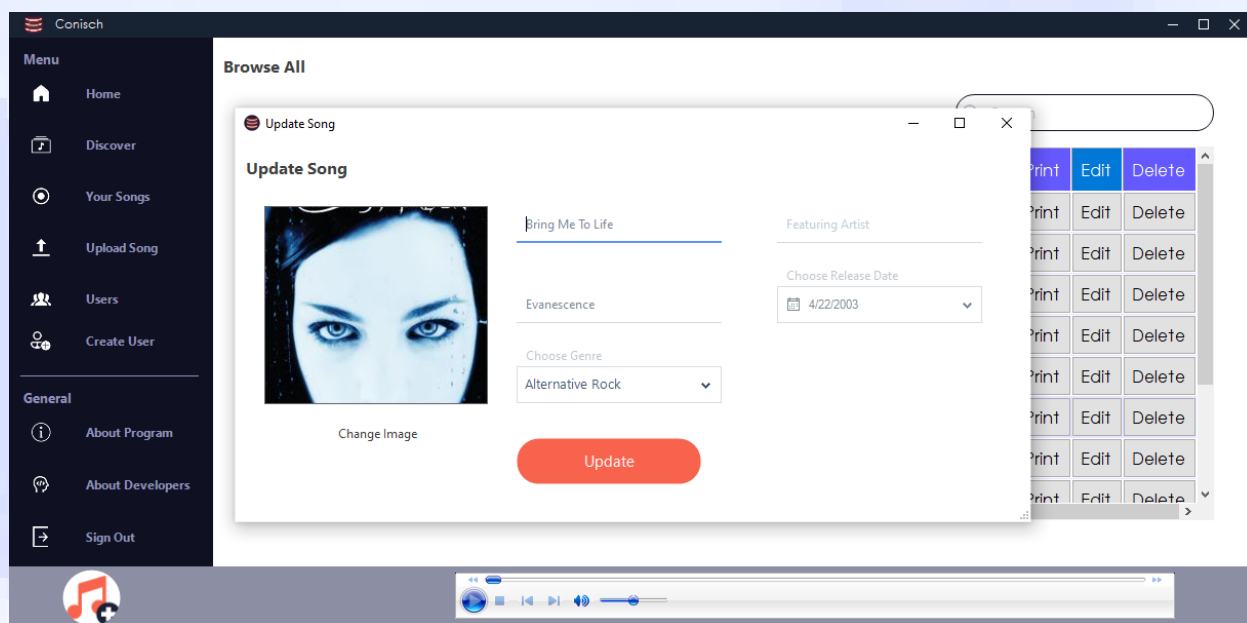

## Print a Song

Any user will be able to print the details of any song that have been uploaded to the Conisch platform. Before printing occurs, the program shows you a Print View Dialog of what will be printed out, then the user can proceed with printing the song details by clicking on the Print button.

## Edit Song

Only the Admin/Manager will be able to edit the existing information of any of the uploaded songs. They must click on the Edit button for the corresponding record that they wish to edit. Once that is done, they will be prompted with a Update Song Dialog, where they will be able to change the song name, artist, cover image, genre, featuring artist and release date for the selected song.

## Delete Song

Only the Admin/Managers will be able to delete songs from the Conisch Platform. This can be accomplished by clicking on the Delete button that corresponds to the specified record. Once the Delete button has been clicked the user will be prompted to confirm the deletion. They can either continue or cancel the deletion.

Yes No

## Play Song

Any user will be able to play any of the songs uploaded to the Consich platform. They have access to play a song either through the Discover or Your Songs pages. While the user is in one of these pages, they are able to click on the play button for any of the songs that they wish to play. Once a song is selected to play, it will begin the play on the audio player at the bottom of the program. Corresponding information to what song is being played will also be displayed. The user will also have access to various media controls such as play/pause, skip, and volume.

The screenshot shows the Consich web application interface. On the left is a dark sidebar menu with options: Home, Discover, Your Songs, Upload Song, Users, Create User, About Program, About Developers, and Sign Out. The main content area is titled 'Browse All' and features a search bar with the text 'tame'. Below the search bar is a table of songs with columns: Play, ID, Image, Song, Artist, Genre, Featuring Artist, and Release Date. The table contains 8 rows of song data. At the bottom of the interface is an audio player showing the currently playing song: 'My Kind of Woman' by Mac DeMarco. The player includes standard media controls like play/pause, previous, next, and volume.

Play	ID	Image	Song	Artist	Genre	Featuring Artist	Release Date
Play	1		Song for Unbirthday	Kensuke Ushio	Hip Hop		January 2
Play	2		My Kind of Woman	Mac DeMarco	Indie Rock		July 26,
Play	3		Tame Impala	On Track	Indie Rock		February
Play	4		Let It Happen	Tame Impala	Indie Rock		July 15,
Play	5		Tennessee Whiskey	Chris Stapleton	Country		April 15
Play	6		Bring Me To Life	Evanescence	Alternative Rock		April 22
Play	7		The Only Thing They Fear	Mick Gordon	Heavy Metal		April 24
Play	8		See You Again	Dr. Dre, Eminem	Hip Hop	Kali Uchis	August 2

Audio player with media controls:

This is a close-up of the audio player interface. It shows the artist name 'Mac DeMarco' and the song title 'My Kind of Woman'. The player includes standard media controls: a play/pause button, previous and next buttons, a progress bar, and a volume control slider.

## Search Song

To make it easier to find a song to play, edit, print or delete, a search bar is included in both the Discover and Your Songs pages. Any user will be able to search by the song name, artist, genre or featuring artist.

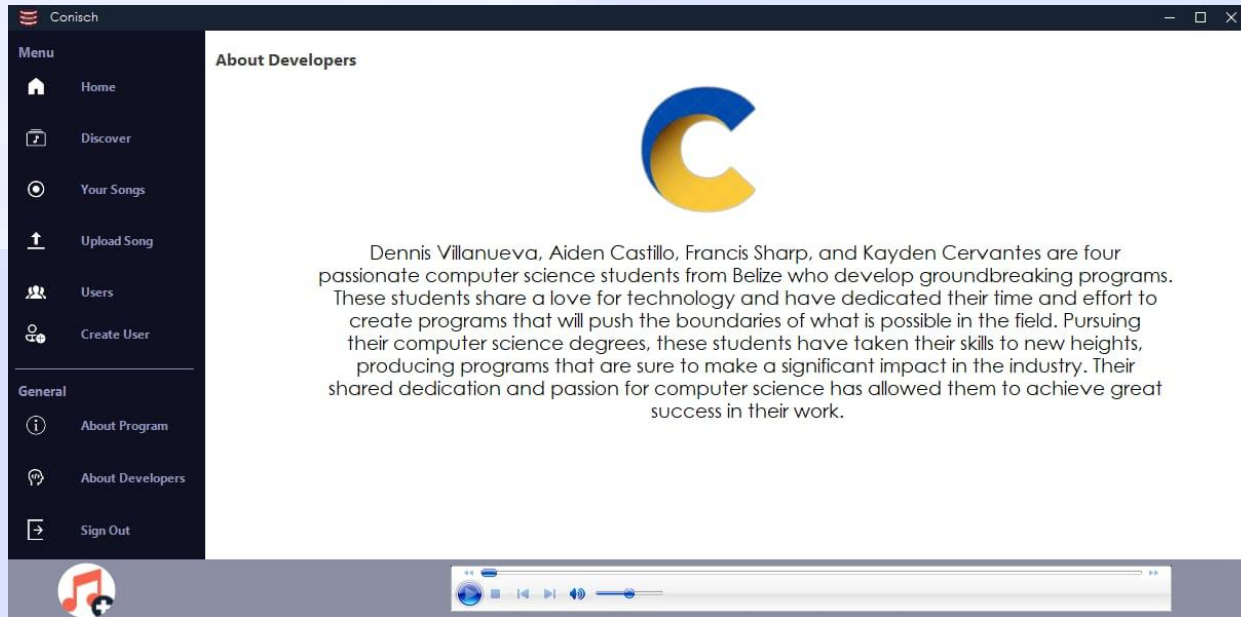

The screenshot displays the Conisch web application interface. On the left is a dark sidebar menu with options: Home, Discover, Your Songs, Upload Song, Users, and Create User. Below these are 'General' links: About Program, About Developers, and Sign Out. The main content area is titled 'Browse All' and features a search bar with the text 'tame'. Below the search bar is a table of search results.

Play	ID	Image	Song	Artist	Genre	Featuring Artist	Released	Uploaded
Play	3		Tame Impala	On Track	Indie Rock		February 14, 2020	April 29, 2023
Play	4		Let It Happen	Tame Impala	Indie Rock		July 15, 2015	April 29, 2023

At the bottom of the interface is a music player control bar with a play button, volume icon, and a progress slider.
